REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The primary reason for allowance is that the prior art of record does not disclose or suggest a process as claimed in which a heavy cracked naphtha is passed to or recycled to the distillation reaction zone along with a light cracked naphtha fraction whereby the heavy cracked naphtha is used as a solvent so that the distillation column reactor may be operated at higher temperatures and still have boiling material in the catalyst bed. This limitation distinguishes over conventional reboiling.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Walter D. Griffin whose telephone number is (571) 272-1447. The examiner can normally be reached on Monday-Friday 6:30 to 4:00 with alternate Fridays off.
